

EMS Project	Name				
Customer Data	Company				
	Address				
	City				
	Postal Code				
	Country				
	Tel				
	e-mail				
	Contact Purchasing				
Contact Engineering					
General	Order Volume				
	Delivery date of first serie				
	Call Off rate (monthly, quaterly, yearly)				
	Call Off Volume				
	Prototype (Y/N)?				
Delivery date of first serie					
Components	Are there custom made components?				
	Which components will be delivered?				
	For which components do you have project prices?				
Documentation		Made available by customer	After order reception, will be made available by customer	Not available	Electronic format when data supplied
	Parts list				
	Pick & Place Information				
	Circuit layout				
	Information concerning board and layers				
	Other information relevant for the project				
Test		Made available by customer	To be developed by PsiControl		
	Test hardware				
	Test software				
	Test methods				
	Estimated time for testing				
Extra comments concerning testing					
Software	Which components must be programmed?				
	Which kind of software (incl. version)?				
	Will the software be made available?				
Miscellaneous	Coating against corrosion?				
	Cleaning products?				
	Expected lifetime testing?				
	Requirements concerning test environment?				
	In-circuit testing?				
	Temperature variation test?				
	X-Ray testing?				
	Vibration testing?				
EMC testing?					
RoHS conformity required?					
Additional Info
